Eindhoven, May 9th 2007

Announcement

We are very pleased to announce that fluXXion has reached on May 7th an investment agreement with our current shareholders and 3 new partners. A consortium of three professional investment funds from the Clean Tech world provides a significant investment. Our new shareholders are Emerald Technology Ventures based in Zurich (Switzerland), Capricorn Venture Partners based in Leuven (B) and Wheb Ventures based in London (UK). Also our existing shareholders, Mr. S. L. Hui and Royal Philips Electronics contributed again to support fluXXion with the development and industrialization of the microsieve technology.

With this strong financial backing fluXXion will be able to complete and test our first industrial unit in the coming months and continue several projects in our targeted market segments, mainly in the food sector.

We would like to thank you for your support during our start-up phase and look forward to continuing our relation in the future!

The fluXXion team

Thijs Bril, Leon van Herten, Ben Brocades, Peter Sygall, Jan Vos, Frans Pronk
